Special Mission Aircraft

Your mission. Our solution.

Elbit Systems™ Aerospace

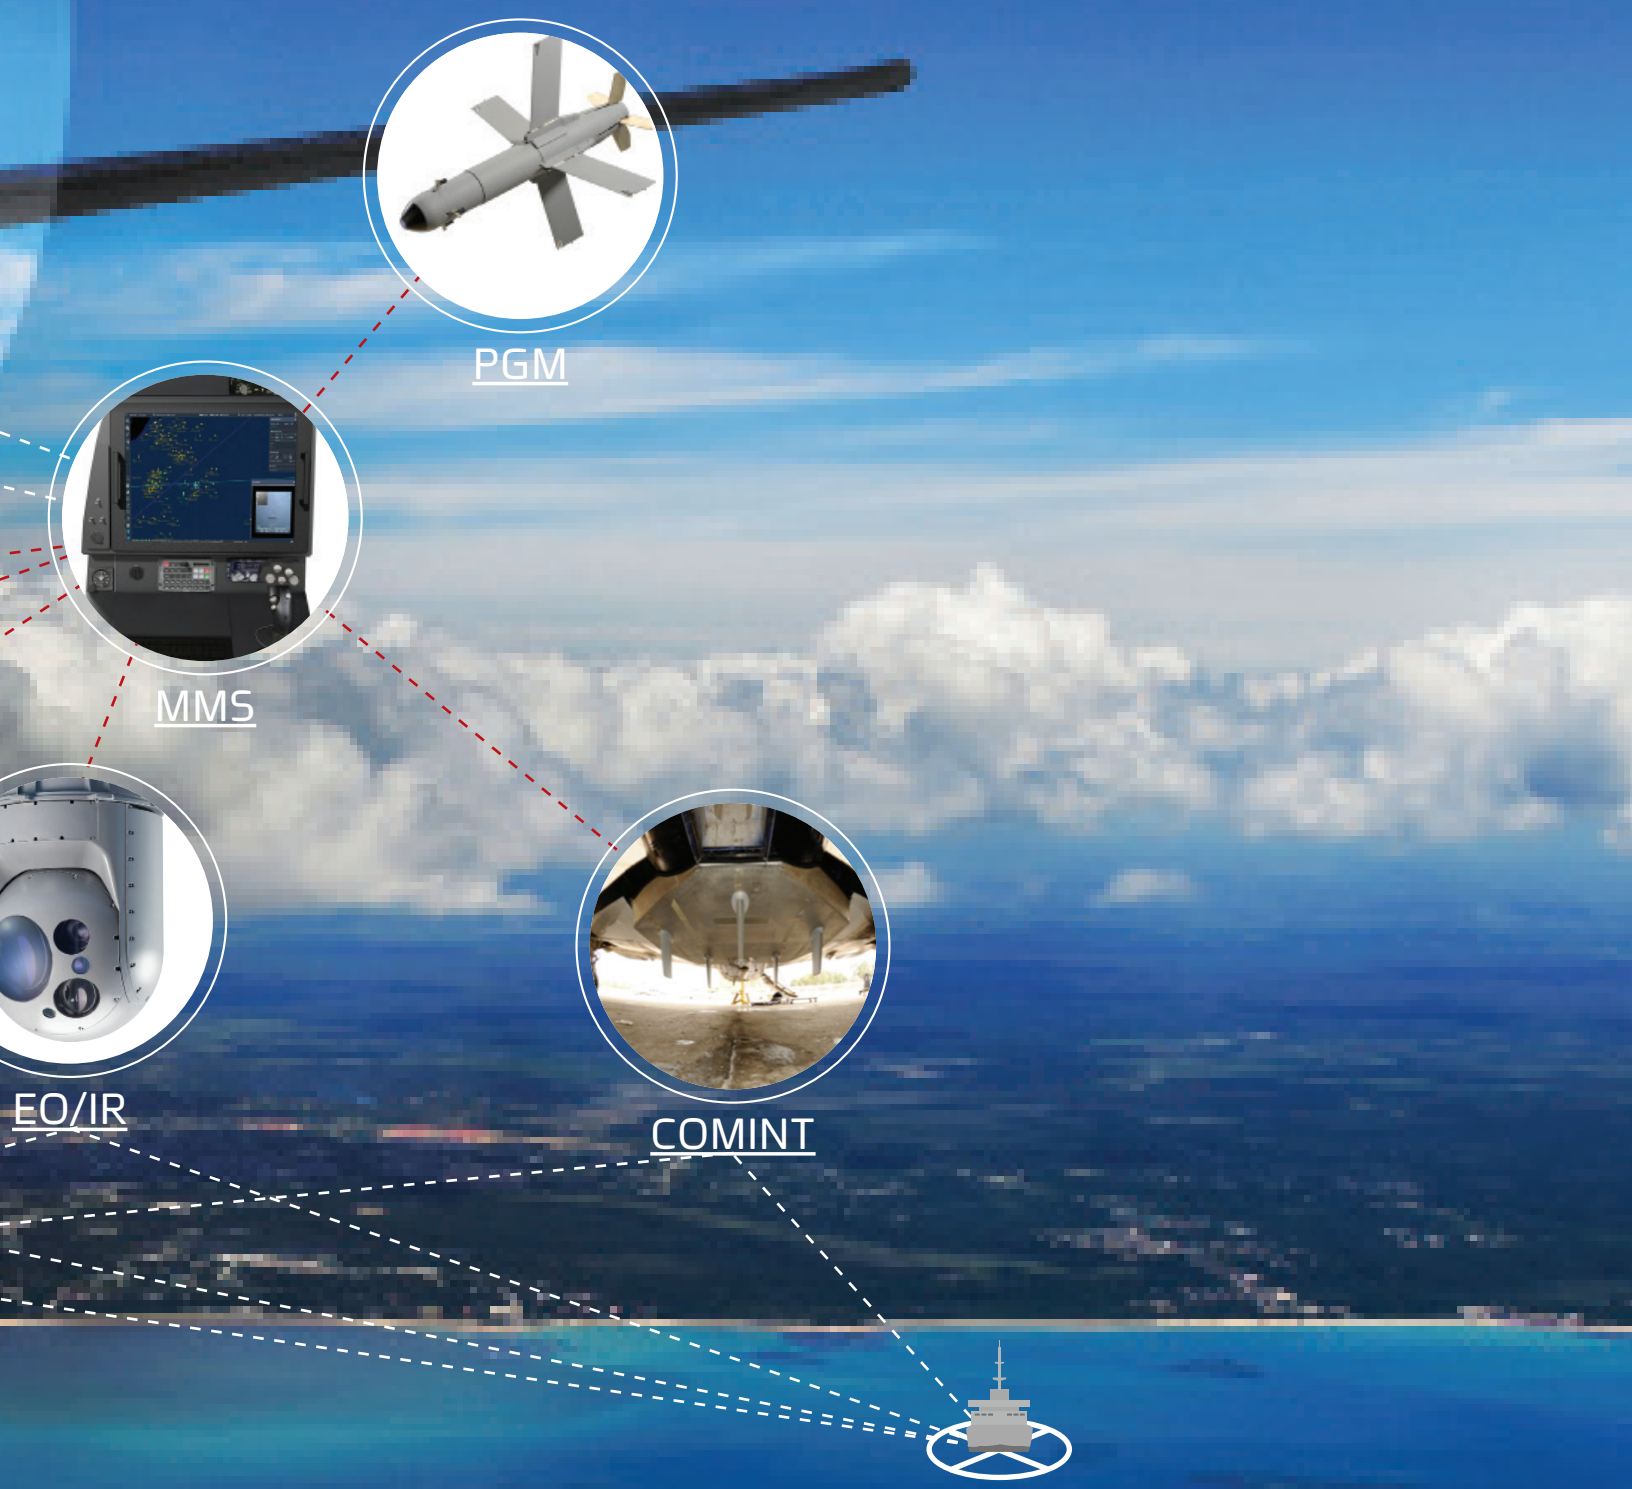
Special Missions - Tailored Solutions

A flexible high-end, modular, platform-agnostic system

Leveraging vast operational experience and in-house capabilities, Elbit Systems offers an end-to-end solution to equip your aircraft to comply with your defense or para military operational requirements.

Integrating high resolution sensors for Intelligence, Surveillance, Targeting and Reconnaissance (ISTAR) with ground C^4I infrastructure.

Elbit Systems' turnkey mission suites feature enhanced data exploitation, analysis and dissemination.



Applications

- ISTAR (SIGINT, IMINT)
- Maritime Patrol
- Counter Insurgency (COIN)
- Stand Off/ Stand In
- Wide Area Persistent Surveillance (WAPS)
- Border/Coastal Security
- EEZ Protection

Special Mission Aircraft

Your mission. Our solution.

Mission Management System (MMS)

Elbit Systems' advanced Mission Management System blends arena situation pictures with advanced operational mission management features, including:

- Command & Control (C^2) - mission planning, zones and routes management, alerts and controls
- Targets detection, classification and identification
- Sensors' slaving and controls
- Synchronized tactical picture between air to ground control station
- Mission debrief - recording and playback data on flight and download post flight
